

Catch up at AA2010 in the Seafood CRC lounge

Don't miss the Seafood CRC project information lounge at Australasian Aquaculture Conference 2010. Have a meeting, check your e-mails, chat to staff or relax and catch up with the latest research.

Day 1 - oyster sessions

Oyster industry presentations are being held on day 1 of the Australasian Aquaculture Conference. Highlights include Peter Redmond, an International seafood market and trade expert, and the latest project results including oyster shelf life predictions based on storage time and temperature.

Register at www.austalian-aquacultureportal.com to attend all 3 days of the event (for alternative registration options, please contact the conference office).

The draft oyster session agenda is available on the Seafood CRC website under Edition 2, Seafood Industry News.
